miPass Access

Product Overview

BQT's biometric access control system, miPASS Access TMS software package, is based on IP connectivity and biometric security for full flexibility. Bio X and BioXK devices work as readers for multiple types of credentials. They additionally work as intelligent controllers and have features that extend the system beyond that of conventional systems with 1, 2, and 3-factor authentication.

Why BQT Solutions

BQT Solutions is a specialist in the development, manufacture and supply of high quality, high security card and biometric readers, electromechanical locks and related electronic security products. Providing high secuirty solutions to verticals such as Airports, Hospitals, Prisons and Government for over 35 years.

Innovating today for a more secure tomorrow

Product Benefits
