## Product End of Life Notice - BioX

Dear BQT Customer,

BQT Solutions (NZ) Ltd is committed to providing the highest quality products and services to its customers. As part of our continuous improvement, it has been determined that our **BioX** product will be removed from the product range and an end-of-life process has begun.

The affected product is referred to as the **BioX** and is classified by anyone of the following part numbers;

**B9101xxxxxxx**

**B9102xxxxxxx**

**B9103xxxxxxx**

**B9104xxxxxxx**

**B9105xxxxxxx**

**B9106xxxxxxx**

Stock holdings of the BioX are expected to be depleted by February 2023. A very suitable alternative is available in the form of the BioXK reader which has the same form factor and function as the BioX with the addition of a keypad. This keypad can be deactivated when not required.

It is expected that there will be little disruption to our customers with this product end of life however any concerns can be directed to your BQT representative.

BQT Solutions (NZ) Ltd.
